SPRING SUMMER **2023**

R

Numerous maritime looks provide this summer a perfect seaside feeling. The new naturalness is more upscale and sophisticated with high quality fine knitwear and jersey in Milano stitch. The look is always combined with the DISMERO five pocket jean cut pants, in a variety of colors as well as many other modern cut trousers; for which the collection is famous. Traditional fabrics in stretch and also new technical fabrics are included in the collection.

It's an explosion of very fine colors and the omnipresence of prints and patterns, as well as decorated surfaces energize the desire for fashion and showcasing. With a beautiful season in bloom, the trends are to exhibit in the sun. Blue water, chalk white, warm lilac; flowers, plants and minerals inspire the colors of fashion. Fabrics and textures are natural for a wardrobe in harmony with the woman who wears it and with the world that surrounds her.
