# DISMERO

MADE IN ITALY

Spring and Summer are the seasons that have much beauty and “joi de vivre”. Thematically this means turning to smart looks, femininity, and modified classics. However, our growing awareness of responsible consumption also ensures a higher demand for quality and durability. It reflects timeless high-quality design with the corresponding use of materials. With sporty-elegant business wear, dressed-up day wear, combination feminine and younger afternoon dresses women are well prepared for next summer.

When everything around you becomes a crisis, a well-groomed appearance gives you support and confidence. Just like the phenomenon that in critical times LUXURY plays a significant role rather than poverty aesthetics. Likely the “Lady look” is not modified and make it charming and wearable.

From the new normal to the realness trend the desire, for a relaxed informal look, determines the mid-summer vacation theme. Inspiration for the Key West maritime trend is an easy, sporty group. Details stand next to maritime dresses and light weight suits. Shirts, tops and fine knits are the next significant product groups besides the uncomplicated dresses.

The new normal and the desire for real-life wear is reflected in all the classic shirt blouses and the combinations with light washed types of denim. Individuality is the new buzzword after years of reciting the world’s community and society,

Safari style always come with CARGO PANTS and jackets equipped with technical details and embroidery. In our safari adventure we have added a touch of ELEGANCE.

It is a fact that we have been one of the first in the world, in the 80s, TO DYE DENIM IN MANY COLORS for the five pocket jeans.

Andy D’Auria
